# VINACEOUS

FINE AND DISTINCTIVE WINES

Since 2007 our unique collaboration has granted us access to some of the best vineyards from The Great Southern and Margaret River regions in Western Australia and enabled us to produce delicious wines.

Our winemaking philosophy is simple and relatively non–intrusive – to produce fine and distinctive wines, that reflect the individual characteristics of the vineyard and variety.

Winemaker | Gavin Berry
Managing Partner | John Waldron

## Vinaceous Red Right Hand Shiraz Tempranillo Grenache 2023

Region | Margaret River/ Frankland River WA, Western Australia .1200 dozen produced
Fruit source:

MARGS/ FRANKLAND.

70% MARGS

30% FRANKLAND

Red Right Hand is the result of the union of three of the great varieties, each with their individual attributes from the warmer Margaret River region of Australia and the warm days and cold nights of Frankland River region. Together producing a wine of great complexity and interest. We are all familiar with the hero variety – shiraz – full of colour, flavour and structure. Grenache contributes to its heady perfume and sweet fruit mid palate. Savoury Tempranillo Finally, bringing the wine together is a small dollop of Grenache

Each component was fermented separately in open topped vats with traditional fermentation techniques. The resultant wine parcels were matured in a combination of French barriques for 10 months before blending.

The wine displays awesome colour; deep crimson red, bright and vibrant in hue. The bouquet is a complex mix of ripe berry fruits and savoury aromas. The palate displays rich and fruit sweet fullness with a complex and savoury textural finish of mature tannin.

## Vinaceous Red Right Hand
## Shiraz 41% Tempranillo 34%Grenache 25%

**Vineyards and viticulture:**
**- Aspect/elevation/location of vineyards**
**NORTH FACING ASPECTS, 105 M ELEVATION OR LESS**
**GROWERS, NOT ORAGINC OR BIODYNAMIC**
**- Vine age, 16- 26YRS,**
**- Machine or hand harvested**
**SHIRAZ MACHINE**
**GRENACHE/TEMPRANILLO HAND PICKED**
**Vinification:**
**CRUSHED/DESTEMMED INTO OPEN TOPPER FERMENTERS. NO WHOLE FRUIT**
**INNOCULATED YEAST**
**OPEN TOPPED FERMENTERS WITH CAP MANAGEMENT BY PUMP OVER AND PLUNGING**
**- If blend: varietal % and any co-fermentation**
**NO CO-FERMENTATION, EACH VARIETY VINIFIED SEPARATELY.**
**PRESSED IN TANK PRESS**
**NO EXTENDED TIME ON SKINS**
**MLF IN BARREL**
**PRESSED TO TANK FOR SETTLING TO REDUCE GROSS SOLIDS PRIOR TO RACKING BARREL**
**- Duration, origin, percentage new of any oak for maturation vessels**
**10% NEW FRENCH OAK, 10 MONTHS MATURATION**

## SUSTAINABLE VINEYARD PRACTICES

Many organic principles are incorporated into our vineyard systems. All nutrition requirements are based upon stringent soil analysis, and a spring application of mineral based fertiliser that is microbiallyseeded is spread as required. During the warm summer months liquid kelp is used as a conditioner to maintainleaf health; so important duringthe final ripening phase.

Minimal herbicide is used in the vineyard, with an integrated farm management approach allowing sheep to graze after harvest to control weeds and provide organic matter for the vineyard.

We always use a very soft fungicide program and rely on organically approved sulfursand copper as the backbone of our programs. This is used in conjunction with canopy manipulation to reduce the incidence of pests and disease. It is a holistic approach with each component affecting the next, with a strong emphasis on soil and plant health as a natural deterrent to pest and disease.
